

ionDesk 1 - Electric Height-Adjustable Table

The ergonomic **ionDesk 1** office desk has many advantageous features and will improve your working conditions:

- Lift up & down to adjust to *your ideal working height* (controller under the worksurface),
- *Many available worksurfaces* to suit your needs (squared edged worksurface, V-shape worksurface, laminated, resin...)
- Can be *easily moved* (rear caster wheel)

Ideal for data reprocessing, this electrical workstation comes with a great worksurface and suits very well with the MS & LC IonBench products range.

The **ionDesk 1** allows you to sit in a very ergonomic position in order to keep concentration and avoid tiredness. The Electric Height-Adjustable IonDesk 1 is also an ergonomic solution widely used in microscopy and hystology. The worksurface is chemical resistant and is very useful for recurrent pipetting activities, which requires high-precision movement and often generate back pain.
